

MaxiCheck Pro Service Tool

RESET, DIAGNOSE & TEST...

It's much more than a simple reset tool.

What sets the **MaxiCheck Pro** apart from all other service tools is that our software allows you to service, diagnose and test vehicle systems.

The **MaxiCheck** line of service tools takes the most frequently used vehicle system modules from the powerful MaxiDAS® DS708 that have **complete functionality** on systems such as: SRS, ABS, TPMS, Oil Service, EPB and more, and put them in affordably priced and **easy to use** tools.

MaxiCheck Pro Features:

- Steering angle sensor (SAS) functionality
- Reads & clears airbag (SRS) trouble codes w/ seat occupancy initialization
- Reads & clears ABS trouble codes, calibrates yaw rate sensors, as well as having bi-directional control
- Complete TPMS diagnosis and relearn functionality
- Opens and closes the electronic brake calipers
- Diagnose EPB/SBC caliper functionality with bi-directional control and much more
- Read and Clear EPB/SBC trouble codes
- Turn off the ECU and brake warning light
- Complete O.E.M. functionality (as powerful as the MaxiDAS® DS708) on specific diagnostic systems for Domestic, Asian and European vehicles
- Enhanced OBD-II coverage
- OBD-II live data graphing and much more
- Reset oil service light, service mileage and service intervals
- Set inspection 1 & 2 service intervals
- Set inspection mileage and much more
- Mode 6 and freeze frame data coverage
- Fully internet updateable and upgradeable
- SD card slot for memory expansion
- Limited One (1) Year Warranty
