

7700B

700 lb. Telescopic Transmission Jack

APPLICATION & BENEFITS

- Telescopic rams enable transfer of transmission from jack to work table
- Universal saddle with four ratcheting arms quickly adjust to any transmission pan configuration
- Chain tie down fastens the load to the saddle and ensures a secure hold
- Overload valve prevents use with over capacity loads
- Wide base legs with swivel casters provide stability and mobility under load
- Two locking casters prevent jack from moving, ensuring shop safety
- Backed by a 1 year warranty
