

BD-2321WR 5" Pneumatic Rear Exhaust Wet Polisher

This pneumatic wet polishing tool is designed for continuous production applications and improved safety. Cast from aircraft aluminum, the BD-2321WR is one of the most durable tools of its kind on the market for polishing stone. The water-tight sealed bearings provide long life and smooth rotational speeds. The water and air controls are simple to use and conveniently located. Rear air vent removes exhaust through a hose protector, away from operator's hands. The BD-2321WR comes with 25' water hose, 5' air hose, 3' air/water hose protector, D-handle and wrenches.
