

ST 324P

Husqvarna ST 324P has been developed for landowners who need a high-capacity, robust and durable snow thrower that comfortably clears large areas. It has been designed for frequent use in all snow conditions, 6-24 in. The two-stage system, hydrostatic transmission and power steering ensure easy operation. Throughout, it has heavy-duty components for maximum durability in all conditions, such as its robust auger housing, cast iron auger gear box and cast iron impeller. Features heated handle grips, LED headlight and electric starter for work in all weather conditions.

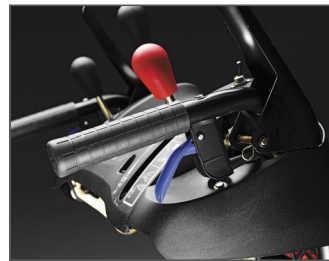

TWO-STAGE SYSTEM

Snow is fed into the housing by an auger and then discharged through the chute by an impeller.

HYDROSTATIC DRIVE SYSTEM

Infinitely variable hydrostatic drive system provides convenient driving with optimum control.

POWER STEERING

Convenient trigger control power steering allows superior maneuverability in adverse conditions.

HEAVY-DUTY AUGER HOUSING

The robust and durable auger housing gives sturdy operation, efficient snow clearing and long product lifetime.

Features

- Heavy-duty auger for different snow conditions
- Cast iron auger gearbox for maximum durability
- Cast iron impeller with four blades
- Ribbon auger for efficient clearing
- Tie strap auger support for improved durability
- Auger with covered ball bearings
- High-strength boron steel scraper
- Easy cold start, thanks to electric starter
- LED headlight/s for operation in dark conditions
- Heated handle grips for comfortable operation
- Differential lock for optimum traction
- Heavy-tread tires for extra good traction
- Heavy-duty plastic and metal skid shoes for user's own choice
- Adjustable skid shoes for protection of ground
- High speed impeller for long throwing distance
- Control for horizontal throwing direction
- Control for vertical throwing direction
- Deflector extension for improved user comfort
- Interlock handle for single hand control
- Drift cutters for snow banks
- Clearing stick for chute
- Husqvarna brand engine with 5-year warranty
- Quiet muffler for user comfort
- Throttle control for easy idling down
- Durable control cables of premium quality
- Pin-lock wheels for tool-less shifting

Technical data

| | |
|---------------------------------------|-----------------------|
| Blower type | Two-stage |
| Working width | 24 inch |
| Auger diameter | 35.5 cm / 14" |
| Number of impeller blades | 4 |
| Engine manufacturer | LCT |
| Cylinder displacement | 254 cc |
| Net power at preset rpm | 5.6 kW @ 3600 rpm |
| Horsepower | 8.5 hp / 6.3 kW |
| Gross Torque | 12.5 lb-ft |
| Fuel tank volume (with reserve) | 0.7 gal. |
| Transmission type | Hydrostatic |
| Transmission steps forward | Variable |
| Transmission steps reverse | Variable |
| Tire size, single axle | 15x5 inch |
| Base machine, length | 53 inch |
| Base machine, width | 24 inch |
| Base machine, height | 39.5 inch |
| Weight | 235.8 lbs |
| Sound pressure level at operators ear | 88.4 dB(A) |
| Sound power level, measured | 100 dB(A) |
| Sound power level, guaranteed (LWA) | 105 dB(A) |
| Vibrations handles | 4.57 m/s ² |
