

## 12V Peak Lithium Ion Micro Grinder (1.5Ah) GP10DL

The GP10DL 12V Peak Lithium Ion micro grinder is the epitome of comfort and precision. The slim soft grip handle and Hitachi's innovative anti-vibration technology combine to create a feeling of total comfort and control. The GP10DL is powered by Lithium Ion batteries for a steady level of power throughout the charge, 3x longer total battery life and 50% lighter weight (only 1.06 lbs). It delivers a no-load speed of up to 35,000 RPM that is controlled by a convenient variable speed dial, and a built-in LED light that effectively illuminates dark work spaces. The GP10DL also features a low battery indicator light to warn the user when run time is low; however recharging the 1.5Ah lithium ion battery takes only 40 minutes.

### Features Include:

- **1.5Ah Lithium Ion battery** for longer total battery life, lighter weight and a steady level of power throughout the charge
- **Variable speed dial** allows the user to control the ideal speed from 5,000 to 35,000 RPM
- **Compact and lightweight** – a mere 8-3/16" in length, and 1.06 lbs to fit in tight spaces
- **Built-in white LED light** for superior visibility even in the darkest of work spaces
- **Innovative anti-vibration system** for increased comfort and total control
- **Slim soft grip handle** increases comfort and reduces fatigue
- **Low battery indicator light** warns the user when run time is getting low
- **Short charge time** – just 40 minutes for more productivity
- **1-Year Tool Warranty, 2-Year Lithium Ion Battery Warranty**

### STANDARD ACCESSORIES

(1) 12V Peak 1.5Ah Lithium Ion Battery	BCL1015
12V Peak 40-Minute QuickCharger	UC10SFL
Carrying Case
