

APPLICATION & BENEFITS

- Use for removal, installation and transporting of transmissions and transfer cases on vehicles that are supported by lifts
- Foot activated pump pedal for hands free raising of the rams
- Lowered telescopic rams enable the transmission to be transferred from the jack to the work table and extended to reach a maximum height of 75.5"
- Foot activated release pedal provides slow controlled lowering of load
- Universal saddle with angle brackets that can be adjusted to the transmission pan configuration
- Chain tie down secures the load to the saddle
- Wide base legs with swivel casters polyurethane tread wheels provide stability and easy maneuverability under load.
- Two caster wheels have locking feature to prevent jack from moving
- The foot pedal release lowers the load at the normal rate of speed; the hand control release provides a slow, controlled lowering rate

Specifications:

Base	21.3" x 35"
Capacity	1,000 lbs.
Max Height	75.5"
Min Height	35.5"
Saddle Tilt (fore & aft)	53° x 30°
Saddle Tilt (side to side)	10° x 30°
Shipping Weight	167 lbs.
